Kelsey Nursery Service

AUTUMN 1928

1. We furnish high quality stock. Kelsey Nursery stock is grown where it grows best; always, of course, with regard to shipping convenience. Of more than seventy nurseries with over twenty thousand acres of stock we select the nearest nursery growing the material of the quality and grade you may want.

2. We furnish our stock at the lowest prices made possible by mass production. Prices of nursery stock vary greatly. One nursery grows stock on land worth, say, \$4,000 or \$5,000 per acre. The stock is no better than that grown at a nearby nursery where land is worth perhaps \$400.00 per acre. Nature has no partiality in this respect. We are, therefore, enabled to sell excellent stock at very low prices.

3. We are an entirely responsible source of supply. Established Fifty Years ago, in 1878, we still have among our customers many who have been patrons for forty years or more. In all our dealings we are always willing to make things right on any errors or just causes for complaint.

4. Our Guarantee—Stock to be in good condition when furnished. We will, however, replace any and all losses at half price.

5. Scarce and rare varieties:—Why look through a dozen nursery catalogues for them? Send us your list and we will quote promptly. This Short Guide is necessarily confined to standard varieties, but with our facilities we can furnish almost any variety or size grown in the United States.

This price list is only a selection of important or popular items from our complete lists.

Deciduous Flowering Shrubs, large sizes of Shade Trees, Roses, Vines, Fruit Trees, etc., have been omitted entirely. But our stock is complete and our prices low. We will gladly quote on any variety you may want, or any size not listed here.

HEDGES AND SCREENS

It is not necessary to use specimen grades for mass planting, screens, hedges, etc. We have a special grade for this purpose in fine Nursery grown Evergreens—perfectly healthy and hardy and all **twice or more times transplanted** (except where noted)—These trees have good fibrous roots and are shipped without ball of earth, carefully packed in wet moss, unless otherwise requested.

EVERGREEN SEEDLINGS AND TRANSPLANTS

EVERYTHING listed here is available in good supply —in some varieties we can furnish more than a million of one size. Nevertheless, in a few weeks some of our customers will be disappointed in obtaining certain varieties they may order. We ask that orders be placed as early as possible. Many items are not listed here. Write us and we will quote them.

PRICES:—Net, packing at cost. Orders for 250 at thousand rate and 50 at hundred rate. Prices subject to change without notice. No order for small seedlings less than 100.

TERMS:—Any claims for errors or shortages to be rendered within ten days after receipt of stock. Half cash in advance, or acceptable references.

N. B.—Many items omitted in this list, deciduous shrubs, for instance. We will gladly quote on request.

“S”—Seedlings.
“X”—Each transplanting.

ABIES (Fir)

	(100)	(1000)
